Hosted MS Exchange

DO YOU RUN A BUSINESS OR A SERVER FARM?
Why are you spending money on hardware, software,
and staff for email and calendaring?

It's time to upgrade to:

- Enterprise-class technology at SMB budgets
- 99.99% uptime
- 24x7x365 service
- Maximum security
- Automatic disaster back up and recovery
- Shared address book, calendar, and contacts

Receive the benefits of business class email in a pay-as-you-go model that allows you to scale up or down as needed, with no risk. Hosted Exchange allows you to free up valuable capital, IT staff, and opportunity cycles by outsourcing the planning, deployment, and maintenance of messaging infrastructure.

We offer on-demand solutions that are implemented quickly, without disruption to your employees or operations.

- Activates and deploys within minutes with a simple DNS record change
- Offers a simple upgrade path for many outdated email platforms

Building on Microsoft's Exchange 2007 product platform, we offer mailbox packages ranging in size from 500 MB to 6 GB. Of course, mobility solutions including ActiveSync, Blackberry Server, iPhone, and email compliance are available. Each of our services include anti-spam, anti-virus, and continuous data backup.

Microsoft Outlook Email

If you want the power of the world’s most widely used email platform, we offer Microsoft Outlook™ 2007. And, you can integrate Microsoft Outlook with Windows SharePoint Services and Microsoft Office Communications Server, and create a powerful business productivity engine. Outlook 2007 licensing, installation media, and automated configuration are included with this service.

Anytime, Anywhere Email

With this service, you can choose how you want to access your hosted email: fully browser-based, or via our preferred Web, POP, and/or IMAP client applications. Whether in the office, at home, or on the road, you are never far from critical communications.

Unparalleled technical capabilities and support

- Hosted in a state-of-the-art, fully redundant data center
- 99.99% availability guarantee
- All solutions covered by Microsoft Forefront antivirus
- Continuous backups
- Spam filtering at Simple Mail Transfer Protocol (SMTP) gateway and email store
- All customer data protected with redundant storage and network paths
- All solutions are monitored through remote synthetic transactions
